## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "...having at least one opening and door formed by cutting sides except for one side of a figure drawn on the sharing thereon", as recited in claim 8, is unclear. The examiner cannot clearly determine what the applicant is trying to encompass by this language.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by '682 to Desmond. Desmond discloses a book for children having at least one page set bound or stapled, wherein the page set comprises a pair of background sheets (22,24), each having a different background design, a sharing sheet (10) putting in between the background sheets for being coordinated with the background sheets; wherein the sharing sheet is made out of transparent material (column 1

line 65 of the specification); wherein the sharing sheet has at least one foreground design drawn on both the front and rear surfaces (figs 2-3); wherein the foreground design on the surface of the sharing sheet is coordinated with the background design on each of the background sheets when the sharing sheet is folded with each of the background sheets (figs 4-7) .

5. Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by '935 to D'Andrea. D'Andrea discloses a children's book having at least one page set bound or stapled wherein the page set comprises a pair of background sheets (12,14), each having a different design (20,22) and a sharing sheet (16) putted in between the background sheets for being coordinated with the background sheets; wherein the sharing sheet is an opaque paper having at least one opening (30) for exposing the background designs therethrough (fig 3); wherein the sharing sheet has at least one foreground design drawn on a front or rear surfaces (column 3 lines 50-52 of the specification); wherein the foreground design on the surface of the sharing sheet is coordinated with the background design on each of the background sheets when the sharing sheet is folded with each of the background sheets (column 3 lines 16-18 of the specification).

***Allowable Subject Matter***

6. Claims 8-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. This is simply art of interest and was not used to reject any claims in this office action.
